# Pair your XR5 for Aim Anywhere control!

Your XFINITY Remote can be paired with Aim Anywhere devices, including select set-top boxes\*, allowing you to control your devices even when they are placed out of line-of-sight (for example, in an entertainment center, behind your TV, or in another room, up to 50 feet away). XFINITY Remotes can be identified by a model number beginning with "XR" on the back of the

Follow the steps below to pair your XFINITY Remote with the Aim Anywhere device.

\*Aim Anywhere control is not supported by all

#### Aim Anywhere Pairing:

- 1. Press and hold the Setup button for 3 seconds, until the status LED changes from
- 2. Press the XFINITY button on the remote. Your TV should display on-screen instructions to enter a 3-digit code. If the instructions do not appear, press the XFINITY button again - up to 2 more times.
- 3. Follow the on-screen instructions to enter the 3-digit code that appears.
- 4. Once the code is correctly entered, your XFINITY Remote is paired with the device.

#### Need to Remove Aim Anywhere Control?

Once your remote control is paired to your set-top box it is uniquely paired and will not control any other set-top box in your home unless you pair it with another device.

If you would like to use your remote to control multiple XFINITY set-top boxes simultaneously, you can remove Aim Anywhere pairing by following the steps below.

- 1. Press and hold the Setup button on the remote until the status LED changes from red to
- 2. Press A on the remote. If the status LED blinks green twice, you have successfully removed Aim Anywhere control.

You can now use your remote to control other Comcast set-top boxes simultaneously

Helpful Tip: Additional remote control support can be found at xfinity.com/remotes.

## **Frequently Asked Questions** about Aim Anywhere Control:

- Q: Why does the status LED flash red then green then red during pairing?
- A: The set-top box you are attempting to pair may not be powered on, or may not support Aim Anywhere control. If the on screen instructions to enter a 3-digit code do not display on your TV when attempting to pair, your set-top box does not support Aim Anywhere control.
- Q: When paired, why does the status LED flash green then red when pressing a button on the
- A: The set-top box that is paired with your remote may not be powered on or may be out of range. If your device is powered on and within 50 feet of the remote, try re-pairing your remote.

### **General Troubleshooting**

- Q: Why does the status LED flash red then green while I am entering the code on my remote?
- A: You may have entered an incorrect code. Check the code and try re-entering it.
- Q: Why does the status LED flash red, but there is no response when I press a key?
- A: Make sure the remote is aimed at your TV or AVR and is no farther than 15 feet away. Also, make sure your set-top box is powered on and in plain

# Cómo sincronizar su control remoto Xfinity para control Aim Anywhere.

Su control remoto puede sincronizarse con equipos con Aim Anywhere, incluidos decodificadores selectos, lo que le permite controlar sus equipos aun cuando están ubicados fuera de la línea de visión (por ejemplo, en un centro de entretenimiento o detrás del televisor). Los controles remotos XFINITY pueden identificarse por el número de modelo que comienza con "XR" que tienen en la parte posterio

Algunos decodificadores son directamente compatibles con la tecnología Aim Anywhere, mientras que otros pueden necesitar que el adaptador Aim Anywhere se sincronice con los controles remotos

Si su decodificador es directamente compatible con la tecnología Aim Anywhere o es compatible con el adaptador Aim Anywhere, siga los pasos a continuación para sincronizar su control remoto XFINITY con el equipo.

#### Sincronización de Aim Anywhere:

- 1. Mantenga presionado el botón Setup (Configurar) durante 3 segundos hasta que la luz LED de estado cambie de color rojo a verde.
- 2. Presione el botón XFINITY del control remoto. El televisor debería mostrar en pantalla las instrucciones para ingresar un código de 3 dígitos. Si no aparecen las instrucciones, presione el botón XFINITY otra vez, hasta 2 veces más.
- 3. Siga las instrucciones en pantalla para ingresar el código de 3 dígitos que aparece.
- 4. Una vez que el código se haya ingresado en forma correcta, el control remoto XFINITY queda sincronizado con el equipo

#### ¿Necesita eliminar el control Aim Anywhere?

Una vez que su control remoto esté sincronizado con su decodificador, esta sincronización es única y no controlará ningún otro decodificador de su hogar hasta que lo sincronice con otro equipo.

Si le gustaría usar su control remoto para controlar varios decodificadores XFINITY en forma simultánea, puede eliminar la sincronización Aim Anywhere siguiendo los pasos a continuación.

- 1. Mantenga presionado el botón Setup (Configurar) del control remoto hasta que la luz LED de estado cambie de color rojo a verde.
- 2. Presione A en el control remoto. Si la luz LED de estado parpadea dos veces en color verde, eliminó satisfactoriamente el control Aim

Ahora puede usar su control remoto para controlar otros decodificadores Comcast en forma simultánea.

Consejo útil: Puede encontrar más soporte para programar el control remoto, como la herramienta de búsqueda de código y las preguntas frecuentes, en xfinity.com/remotes

## Preguntas frecuentes sobre el control Aim Anywhere:

- P. ¿Porqué la luz LED de estado parpadea en colorrojo, luego en verde v después en roio durante la sincronización?
- R: Es posible que el decodificador que intenta sincronizar no esté encendido o no sea compatible con el control Aim Anywhere. Si las instrucciones en pantalla para ingresar un código de 3 dígitos no aparecen en su televisor cuando intenta hacer la sincronización, su decodificador no admite el control Aim Anywhere
- P. Tras la sincronización, ¿por qué la luz LED de estado parpadea en verde y luego en rojo cuando presiono algún botón del control remoto?
- R: El decodificador que está sincronizado con el control remoto puede estar apagado o fuera de alcance. Si el equipo está encendido y a menos de 50 pies del control remoto, pruebe volviendo a sincronizar el control remoto.

# Solución de problemas

- P. ¿Porqué la luz LED de estado parpadea en colorrojo y luego en verde mientras ingreso el código en el control
- **R**: Es posible que haya ingresado un código incorrecto. Verifique el código y pruebe volver a ingresarlo.
- P. ¿Por qué la luz LED de estado parpadea en rojo, pero no hay respuesta cuando presiono alguna tecla?
- R: Asegúrese de que el control remoto apunte al televisor o AVR y no esté a más de 15 pies de distancia. Además, cerciórese de que su decodificador esté encendido y a plena vista.

## Here's what your remote can do.

Esto es lo que tu control remoto puede hacer.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not used in accordance with the instructions, may cause harmful interference to radio communications.

There is no quarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. Increase or decrease the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver s connected.
- Consult the dealer or an experienced remote control/TV technician for help.
- It is strongly recommended that the TV be plugged into a separate wall outlet.

The user is cautioned that changes and modifications made to the equipment without the approval of the manufacturer could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

"CAUTION": Exposure to Radio Frequency Radiation. Antenna shall be mounted in such a manner to minimize the potential for human contact during normal operation. The antenna should not be contacted during operation to avoid the possibility of exceeding the FCC radio frequency exposure limit

CÓDIGOS DE CONFIGURACIÓN PARA AVR Y

# It's simple to program your XFINITY Remote to control your TV and Audio Video Receiver.

Your XFINITY Remote is already programmed to control your set-top box. To program the remote for control of Power, Volume, Mute and TV Input on your TV or Power, Volume, and Mute on your audio video receiver (AVR), including a soundbar, follow the steps

**Note:** A soundbar is a type of AVR.

#### Here's how to program your remote for control of a TV or TV and AVR:

- 1. Make sure your remote is charged and powered on. Also, make sure your TV, AVR and set-top box are powered on.
- 2. Refer to the "Setup Codes for TVs" and "Setup Codes for AVRs" sections to find the manufacturers of your TV and AVR.
- 3. Press and hold the **Setup** button on your remote until the status LED changes from red to green.
- 4. Enter the first code listed for the TV manufacturer. The status LED should flash green twice when the
- 5. Press the **TV Power** button on the remote. If the TV turns off, you have successfully programmed your remote. Turn the TV back on and press the VOL +/- and Mute buttons to confirm they control the volume of your device.
- 6. If the TV does not turn off or the **VOL +/-** and **Mute** buttons do not work, repeat the steps above using the next code listed for your TV manufacturer. If you only want to program your remote for TV control, you're all set!

Continue with the following steps to program your remote for AVR control.

**Note:** To program your remote for simultaneous control of both a TV and AVR, the TV must be programmed before the AVR.

- 7. Press and hold the **Setup** button on your remote until the status LED changes from red to green.
- 8. Enter the first code listed for the AVR manufacturer. The status LED should flash green twice when the code is entered.
- 9. Press the All Power button on the remote. If the AVR turns off, you have successfully programmed your remote. Turn the AVR back on and press the VOL +/and **Mute** buttons to confirm they control the volume of your device. If so, you're all set!
- 10. If the AVR does not turn off or the VOL +/- and Mute buttons do not work, repeat the steps above using the next code listed for your AVR manufacturer.

#### Here's how to program your remote for only AVR control:

- 1. Make sure your remote is charged and powered on. Also, make sure your AVR and set-top box are
- 2. Find the manufacturer of your AVR in the "Setup Codes for AVRs and Soundbars" section.
- 3. Press and hold the **Setup** button on your remote until the status LED changes from red to green.
- 4. Enter the first code listed for the AVR manufacturer. The status LED should flash green twice when the code is entered.
- 5. Press the **TV Power** button on the remote. If the AVR turns off, you have successfully programmed your remote. Turn the AVR back on and press the VOL +/and Mute buttons to confirm they control the volume of your device. If so, you're all set!
- 6. If the AVR does not turn off or the **VOL +/-** and **Mute** buttons do not work, repeat the steps above using the next code listed for the device manufacturer. You

#### CAN'T FIND YOUR CODE?

may need to try several codes to find the one that

control using the codes on the back of this guide, follow the steps below to search for your code.

If you can't program your remote for TV and/or AVR

1. Turn on your TV and AVR.

works for your device.

- Press and hold the Setup button on your remote until the status LED changes from red to green
- 3. To search for a TV code, enter 9-9-1 on the remote. To search for an AVR code, enter 9-9-2. The status LED should flash green twice.
- 4. Press the CH ^ button repeatedly to search through the manufacturer codes until the device
- you are programming turns off. 5. After the device turns off, press Setup. The status LED on your remote should flash green twice.
- Press the **TV Power** button on the remote. If the device turns on, you have successfully programmed your remote.

# Programar el control remoto XFINITY para que controle su televisor y receptor de audio y video es muy sencillo.

El control remoto XFINITY ya está programado para controlar su decodificador. A fin de programar el control remoto para el control de Power (Encendido). Volume (Volumen), Mute (Silenciar) v TV Input (Entrada de televisión) de su televisor, o bien Power (Encendido), Volume (Volumen) y Mute (Silenciar) en su receptor de audio y video (audio video receiver, AVR), inclusive un sistema soundbar, siga los pasos a continuación.

Nota: Un sistema soundbar es un tipo de AVR.

#### Instrucciones para programar su control remoto para que controle un televisor o televisor v AVR:

- 1. Asegúrese de que su control remoto esté cargado y encendido. También asegúrese de que su televisor, AVR y decodificador estén encendidos.
- 2. Consulte las secciones "Códigos de configuración para televisiones" y "Códigos de configuración para AVR y Sistema Soundbar" en la parte posterior de esta quía para encontrar a los fabricantes de su televisor y AVR.
- 3. Mantenga presionado el botón Setup (Configurar) de su control remoto hasta que la luz LED de estado cambie de color rojo a verde
- 4. Ingrese el primer código de la lista del fabricante del televisor. La luz LED de estado debe parpadear en color verde dos veces cuando se ingresa el
- 5. Presione el botón TV Power (Encendido de televisor) del control remoto. Si el televisor se apaga. usted ha programado satisfactoriamente el control remoto. Vuelva a encender el televisor y presione los botones VOL +/- y Mute (Silenciar) para confirmar que controlan el volumen de su equipo.
- 6. Si el televisor (o el AVR) no se apaga o los botones VOL +/- v Mute (Silenciar) no funcionan, repita los pasos anteriores utilizando el código siguiente de

la lista del fabricante de su televisor.

programar el televisor antes que el AVR.

que controle el televisor, ya terminó. Continúe con los pasos siguientes con el fin de programar su control remoto para control de un AVR. Nota: Si desea programar su control remoto para que controle simultáneamente un televisor y un AVR, debe

Si solamente quiere programar el control remoto para

- 7. Mantenga presionado el botón Setup (Configurar) del control remoto hasta que la luz LED de estado cambie de color rojo a verde.
- 8. Ingrese el primer código de la lista del fabricante del AVR. La luz LED de estado debe parpadear en color verde dos veces cuando se ingresa el código.
- 9. Presione el botón All Power (Todo encendido) del control remoto. Si el AVR se apaga, usted ha programado satisfactoriamente el control remoto. Vuelva a encender el AVR y presione los botones VOL +/- y Mute (Silenciar) para confirmar que controlan el volumen de su equipo. Si es así, ya terminó.
- 10.Si el AVR no se apaga o los botones VOL +/- y Mute (Silenciar) no funcionan, repita los pasos anteriores utilizando el código siguiente de la lista del fabrican-

#### Instrucciones para programar su control remoto para que controle solamente un AVR:

- 1. Asegúrese de que su control remoto esté cargado y encendido. También asegúrese de que su AVR y decodificador estén encendidos.
- 2. Busque el fabricante de su AVR en la parte posterior de esta quía.
- 3. Mantenga presionado el botón Setup (Configurar) del control remoto hasta que la luz LED de estado cambie de color rojo a verde.
- 4. Ingrese el primer código de la lista del fabricante del AVR. La luz LED de estado debe parpadear en color

- verde dos veces cuando se ingresa el código. 5. Presione el botón TV Power (Encendido de televi-
- sor) del control remoto. Si el AVR se apaga, usted ha programado satisfactoriamente el control remoto. Vuelva a encender el AVR y presione los botones VOL +/- y Mute (Silenciar) para confirmar que controlan el volumen de su equipo. Si es así. va terminó.
- 6. Si el AVR no se apaga o los botones VOL +/- y Mute (Silenciar) no funcionan, repita los pasos anteriores utilizando el siguiente código de la lista del fabricante del equipo. Es posible que deba probar varios códigos hasta encontrar el que funciona con su equipo.

#### ¿NO PUEDE ENCONTRAR EL CÓDIGO? Si no puede programar su control remoto para que

controle un televisor y/o un AVR con los códigos que aparecen en la parte posterior de esta guía, siga los pasos a continuación para buscar su código.

- 1. Encienda su televisor y AVR.
- 2. Mantenga presionado el botón Setup (Configurar) del control remoto hasta que la luz LED de estado cambie de color rojo a verde. 3. En caso de buscar un código para televisor,
- ingrese 9-9-1 en el control remoto. En caso de buscar un código para AVR, ingrese 9-9-2. La luz LED de estado debe parpadear en color verde dos veces 4 Presione el hotón CH \( \) reiteradamente para
- buscar entre los códigos del fabricante hasta que el equipo que está programando se apague. 5. Una vez que el equipo se apague, presione Setup
- (Configurar). La luz LED de estado del control remoto debe parpadear dos veces en color verde. Presione el botón TV Power (Encendido de televisor) del control remoto. Si el equipo se enciende, usted ha programado satisfactoriamente el control remoto.
